

Profile Product Specialist

Location	Sensofar Terrassa (Barcelona)
Reports to	VP Sales
Supported by	Sales team

Sensofar Group is a Great Place to Work certified multi-national company whose mission is to develop, manufacture and commercialize high-end 3D surface metrology instruments. The Group also provides consultancy within the field of metrology, and pursues a philosophy of guaranteeing advanced techniques, high quality and customer services.

Our experienced team of scientists and engineers, with extensive research experience and direct knowledge of the industry, provides the necessary key strengths to ensure the success of the company: high-quality products and faultless customer service, the ability to develop high-end custom applications and diverse optical metrology projects, and the flexibility to adapt our business to the market needs.

At Sensofar, we are always looking for interesting and well-qualified individuals with the proven ability to work individually and collectively within a larger team.

OBJECTIVE

We are currently looking for young professional interested in joining our dynamic company, located in Barcelona area. He/she will become a worldwide expert technical and applications' support for the sales channels and support the strategic line of the company "High Value Added Pre-Sales Assistance".

JOB RESPONSIBILITIES

- Provide technical and application's support for the Global Sales Team and distribution channel.
- Participate in sales training activities for the channel.
- Perform thorough sample measurements and reporting.
- Perform demonstrations and training sessions for customers.
- Participate in the maintenance of the demonstration units.
- System installations (for complex installations, if required).
- Participate eventually in technical shows.

Profile Product Specialist

- Identify and report issues and possible improvements of current products (SW & HW)

REQUIRED EDUCATION AND EXPERIENCE

- Bachelor's degree in Engineering, Materials, Optics, Physics or similar
- Experience in Optical Metrology or Material Testing instruments is a plus.

OTHER SKILLS

- Demonstrated organizational skills, ability to independently prioritize work and appropriate attention to detail.
- Excellent communication and presentation skills in English are expected
- Motivation for working in an international technological environment with a strong growth.

ATTITUDE

- Proactive, accountable, versatile and highly motivated to be part of a technology company in strong expansion
- Good team player and quick learner
- Passion for a job well done
- Customer focus

BENEFITS OF BEING PART OF SENSOFAR

- Development plan designed to make you grow and succeed
- Regular touch points with your area responsible and your team to exchange opinions and purposes, maximizing your proactivity
- Corporate health insurance at very attractive conditions
- 100% subsidized English classes up to proficiency level
- Flexible schedule
